

MINERAL WATER PROJECT ON TURN KEY BASIS

EVERGREEN TECHNOLOGIES

Committed to Quality...

ABOUT US

EVERGREEN TECHNOLOGIES established in 2002 is an ISO 9001:2008 certified company and a leading player in “BOTTLED WATER” industry. With 1000 of customers across India, we are a vertically integrated and professionally managed organization led by a dynamic team of qualified technocrats. We have Designed, Manufactured, Erected and Commissioned “BOTTLED WATER” Purification/Treatment plants of varying sizes starting from 1000 LPH to 50000 LPH on Turn key basis.

We have well Experienced Engineers, Technicians, Chemist, Microbiologists and other related professionals. These employees are sufficiently qualified and have been groomed to be specialists in their respective departments.

We offering BOTTLED WATER PROJECTS on Turn Key Basis, including Water Purification System, Automatic Bottle & Jar Filling Machine, PET Blow Moulding, Pouch Packing Machine & Quality Control Laboratory as per WHO/BIS/ISO Standards.

We offer consultancy services for establishing Turn Key Bottled water project.

OUR QUALITY POLICY

- Provide customers with quality products and services
- Provide products and services in time, utilizing efficient methods.
- Provide customers with the best value for their resources expended.
- Provide a system of continuous improvement across all disciplines.

OUR MISSION

- We committed to ushering a era of water abundance by deploying state-of-art solutions at affordable cost.

OUR VISION

- We aim to become the most preferred partner of quality conscious organization in implementing water treatment solutions of any kind in the world.

WHY EVERGREEN ?

- BOTTLED WATER Projects on TURN KEY BASIS
- End to End Solutions for BOTTLED WATER projects.
- A single source for complete quality systems needs of BOTTLED WATER Manufacturers.
- All machinery under one Roof
- Consultancy Services
- Company own Manufacturing Factory & Work Shop.
- Experienced Engineers & Technicians
- Annual Maintenance contract services
- Round the Clock Service Backup
- 15 Years Experience in BOTTLED WATER Industry.

WATER PURIFICATION SYSTEM

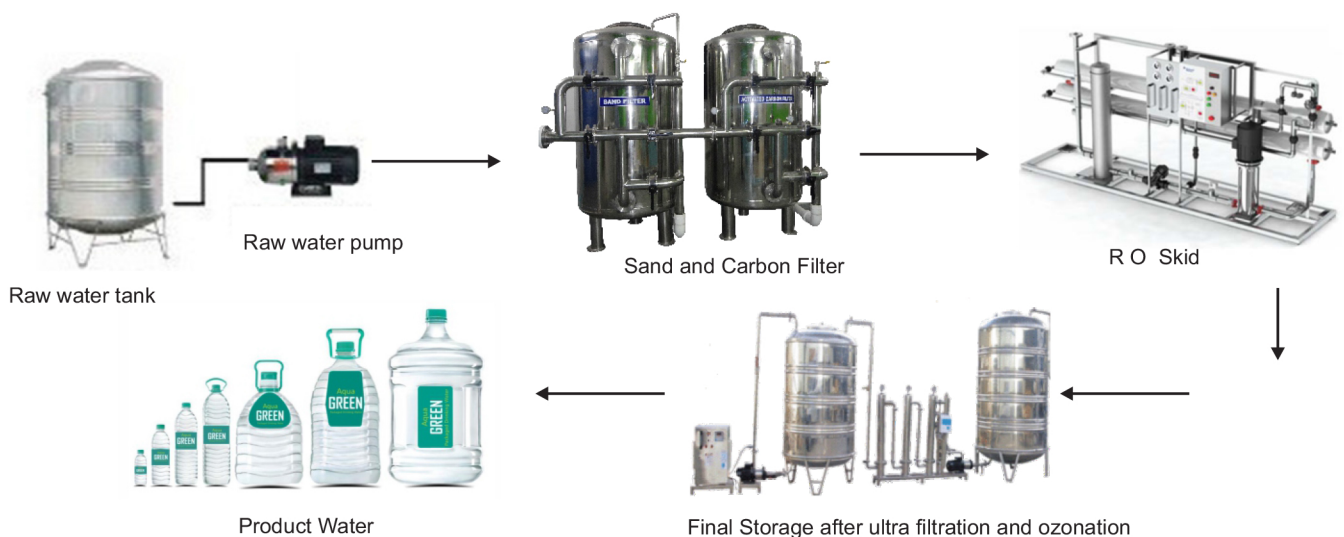

We can offer you state-of-the art Water purification systems for Bottled water industry which confirms to the standards set by BIS (Bureau of Indian Standards), WHO (World Health Organization). Our water purification system can be designed for any capacity. 1000-LPH to 50000-LPH

FEATURES

- Water processing system designed as per WHO/ISO/BIS standards.
- Complete project in TURN KEY Basis.
- MOC : Stainless Steel (304 L & 316 grade) & Food Grade certified material & components.
- Low maintenance and durable
- CIP cleaning system
- Disinfectant – Ozonator & UV Sterilizer
- End to end SS pipeline

AUTOMATIC RINSING, FILLING & CAPPING MACHINE

FEATURES

- Bottle Filling size -200 to 2000 ml
- MOC:- Stainless steel (304 Grade) water contact parts 316 Grade
- Rotary- Neck Holding
- No Bottle –No Rinsing-No Filling –No Capping
- Compact Design-High Out put
- Separate Cap Hopper / elevator
- Bottle In feed Air conveyer system
- Out conveyer –shrink tunnel & inspection lamp

AUTOMATIC 20 LTR JAR WASHING, RINSING, FILLING & CAPPING MACHINE

FEATURES

- 120 jars to 550 jars per Hour
- MOC: - Stainless steel 304 L Grade
- Cleaning - Outer wash, inner wash & Rinsing

- All pumps are Inbuilt
- Separate cap Hopper systems
- Jar Loading – Manual (or) Auto loader –On request basis

SEMI AUTOMATIC PET STRETCH BLOW MOULDING MACHINE

FEATURES

- 900 Bottles To 1200 Bottles Per Hour
- 2 Cavity
- PLC Control
- Low Power Consumption & High Efficiency
- Auto Drop

AUTOMATIC PET STRETCH BLOW MOULDING MACHINE

FEATURES

- 1500 Bottles To 4000 Bottles Per Hour
- 2 Cavity & 4 Cavity
- Separate Preform Hopper – Auto Loader
- Bottle-Air Conveyor Feeder (Synchronization) – **On Request**
- PLC Control
- Low Power Consumption & High Efficiency
- Compact Design – **Tailored Made**

QUALITY CONTROL LABORATORY

FEATURES

- Lab Setup as per WHO, ISO & BIS Standards
- Chemical / Microbiological Lab

WHAT WE DO?

Source / Site selection | Building Design and Planning | Execution |
Site construction monitoring | Periodical site visit & advises

Guidelines & Support

Project Report | Training for Quality | Pollution control board
| Ground water authority | FSSAI licence & other related activities

Lab installation | Training for Quality control person (on site)
| instrument calibration and certification |
| Product standardization | Shelf life studies |
sample testing co-ordination

Documentation | Paper compliation | ISI application preparation
| Filing and Follow-ups | Pre-inspection - Audit | Inspection co-ordination |
Document preparation - submission
| File & record maintenance | Periodical factory visits & Audits
| Licence renewal & other BIS related activities
| OSL testing & reports (NABL laboratories)
